# LED OUTDOOR LIGHTING

## Profile

KINGSUN, established in 1994, publicly listed in 2011 (Stock Code: 002638), a National High-tech, ISO 9001, ISO 14001, ISO 27001 and ISO 45001 certified enterprise, a long-held professional industry-leading LED Lighting researcher, developer and manufacturer. In partnership with world-renowned institutions on basic research, our in-house R&D teams up with the expert talent pools of our post-doctoral station, relying on our KSMART Institute and CNAS Labs, to push boundaries on applied development in the industry leading-edge LED Roadway, Industrial, Sports, Commercial, Intelligent Lighting and Smart City Solutions.

Based on our 300,000 m2 of assembly and testing facility of the manufacturing base in Dongguan, the Capital of Made in China, under our global-advanced fabrication and world-class quality control system. We, in parallel,

offer our trusted KINGSUN-branded, energy efficiency project-based services to Regional ESCOs, Multinational Utilities, and Local Municipalities, together with OEM/ODM Services to the household names of Walmart, Home Depot, Lowe's and more top industry brands throughout the United States, Canada, Mexico, Colombia, Chile and other 100 more countries of over a record 4,000,000 light points so far.

We sincerely hope to work with you on LED Roadway, Industrial, Sports, and Commercial Lighting projects and tailor-made contract manufacturing services to raise more Brighter, Greener and Safer communities and fulfill your commitment to Net-zero earlier.

Let's make it happen.

# KING MOMENTS

## Milestones

- 2022** Exceeded 3,000,000 units Luminaries Installed Overseas
- 2017** Became Global Top 10 LED Street Lighting Player
- 2016** Launched Smart LED Lightings
- 2015** A Comprehensive LED Lighting Solution Provider
- 2011** Listed in China Stock Exchange
- 2007** Mass Production of High Power LED Lighting Products
- 2004** Developed High Power LED Lightings
- 1998** Developed Low Power LED Lightings
- 1994** Company Established

## Highlights

**19** years experience in high power LED lighting application

**25** years experience in LED lighting R&D and exploration

**429** authorized patents, **76** invention patents in particular

Asia biggest SSL lighting R&D and production base with **300,000 Sq.M**

More than **3 Million** LED street lights installed all over the world

# Street & Area Lighting

# Agola Street Light

## Description

AGOLA, applies to an upward tendency, a smooth die-cast aluminum housing, IK09 tempered glass cover, and a tool-less/free accessing driver chamber. Utilizes cutting-edge LED Light sources and matches a wide range of in-house designed optic lenses. In addition, its Post-top/Side-entry, NEMA/ZHAGA Smart City-ready socket options make it suit almost all roadway lighting worldwide.

- Tempered Glass Cover
- NEMA Socket Available
- Tools Free
- Lumen Efficiency>150lm/W
- Type II or III or IV light distribution
- Protection IP66/IK09

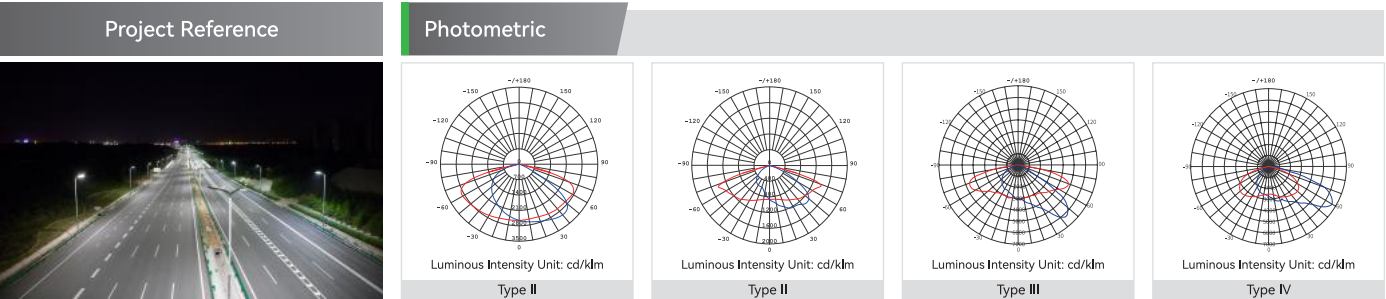

Optical Specs	
LED Light Source	5050 (Lumileds / Cree / Osram / Lightning)
LED Color Temperature	4,000K (5,000K and 3,000K optional)
Color Rendering Index	Ra>70 (80 optional)
Light Distribution & LENS Kit	Type II / Type III / Type IV

Other Specs	
Operating Temperature & Humidity	-40°C~50°C / 10~95RH
Storage Temperature	50°C
Protection	IP66 / IK09
Opening Driver Chamber	Tool-free
Safety Feature	Lift-off head, With automatic electrical disconnecter
L80 Hours @ 25°C	>93,000 hours
Installation	Side entry or post top with tilt angle -15°~+15° (in steps of 5°)

Electrical Specs	
Input	100-220-240-365V 50/60Hz
Power Factor	>0.95
Surge Protection	10KV (20KV optional)
LED Driver	Philips LED Driver (Inventronics / MOSO optional)
Dimming	W/O; 1-10V / DALI / Programmable / NEMA / ZHAGA
Insulation	Class I / Class II options

# Pallas Street Light

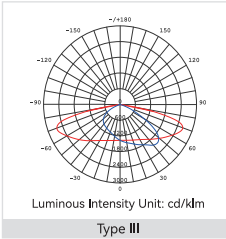

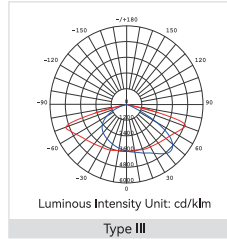

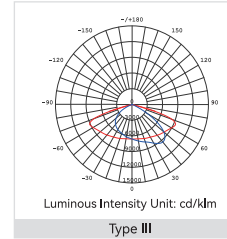

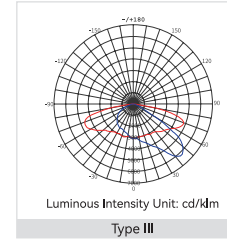

## Description

PALLAS, represents our most successful budget street lighting designs. Utilizes an integral die-cast housing, realizes better heat dissipation, lighter weight and lower body cost. As a result, we budgeted the cost but did not cheap the design. Still, the whole PALLAS series, with a smart-ready optional NEMA/ZHAGA receptacle, stands by for future smart city applications like other Kingsun premium ones.

# Athena Street Light

## Description

ATHENA, a multi-functional series, features with and without tempered glass options and suits diversified project requirements. Available in 3 sizes, which cover from 20W to 200W, with up from 150lm/W (Tempered Glass version) to 160lm/W efficacy, helping you to save significant power with less wattage consumption. Plus, a reserved 5/7-pin NEMA socket for a future smart city to help you save even more.

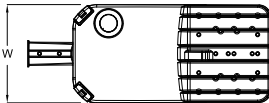

-  Tempered Glass or PC Lens Cover
-  NEMA Socket Available
-  Tools Free
-  Lumen Efficiency>160lm/W
-  Type II or III light distribution
-  IP/IK Protection IP66/IK09

# Apollo Street Light

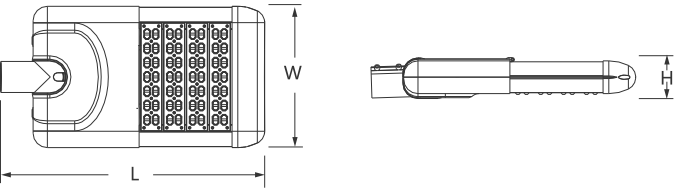

## Description

As one of the earliest modular-design, bar-shaped modularized LED Street Lights, KINGSUN APOLLO is a real innovative pioneer in the industry. The single series has a record sale of one million points accumulated. And we never stopped upgrading with the latest Light Sources, the most needed Lenses, and the best effective Drivers to ensure it always has the edge to stay in the industry's frontier.

-  Modular Design

# Apollo II Street Light

## Description

With APOLLO's unparalleled performance and unprecedented success, the market highly requests the same functionalities but cheaper ones. So comes the APOLLO II. We retained the modularized concept but simplified the module design, the driver chamber, and the mounting bracket of  $\Phi 40$  to  $\Phi 60$ mm to save cost and make it available for less budgeted projects in more developing markets.

-  Modular Design
-  NEMA Socket Available
-  Tools Free
-  Lumen Efficiency>150lm/W
-  Type II or Type III light distribution

# Tunnel Lighting

# Stirrup Tunnel Light

## Description

STIRRUP shares the modular concept, utilizes the advantage of incremental wattage design, and transfers to a versatile version of Tunnel Lighting. It changes a side-entry pole mounting to the Y-shape bracket on top of it and makes it available with an adjustable -60 ° to +60 ° for side-mounting or ceiling-mounting of the tunnel to match most tunnel lighting applications.

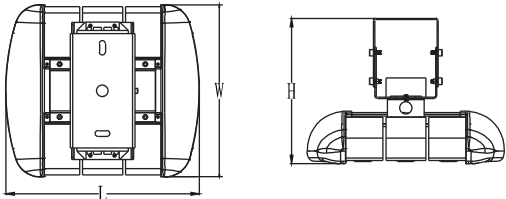

-  Modular Design
-  Multiple Installation
-  Installation Angle Adjustable
-  Lumen Efficiency>150lm/W
-  Beam Angle 30° to 120°
-  Protection IP66/IK10

Optical Specs	
LED Light Source	3030(Standard) / 5050(Premium)
LED Color Temperature	4,000K (5,000K and 3,000K optional)
Color Rendering Index	Ra>70 (80 optional)
Light Distribution & LENS Kit	Type I / Type II / Type V

Other Specs	
Operating Temperature & Humidity -40°C~50°C / 10~95RH	
Storage Temperature	50°C
IP Classification	IP66 / IK09 on Aluminum Housing or IK07 on PC housing
Housing	PC or Aluminum End Cap + Aluminum Module
L80 Hours @ 25°C	>93,000 hours
IK Rating	IK09 on Aluminum Housing or IK07 on PC housing

Electrical Specs	
Input	100-220-240-365V 50/60Hz
Power Factor	>0.95
Surge Protection	6KV (options 10KV & 20KV)
LED Driver	Philips LED Driver (Inventronics / MOSO optional)
Dimming	W/O; 1-10V / DALI / Programmable
Insulation	Class I

# Artemis Tunnel Light

## Description

ARTEMIS Tunnel Light combines with a die-cast aluminum housing and extruded aluminum modular, making the body bolder but lighter. Plus, a PC lens makes this luminaire IK 10 impact available. And an I-Shape bracket could help the light to pendent-mount in areas with no lamp poles or do not want any columns to change the traditional esthetics in the historic preservation areas.

-  Modular Design
-  Multiple Installation
-  Installation Angle Adjustable
-  Lumen Efficiency>150lm/W
-  Beam Angle 30° to 120°
-  Protection IP66/IK10

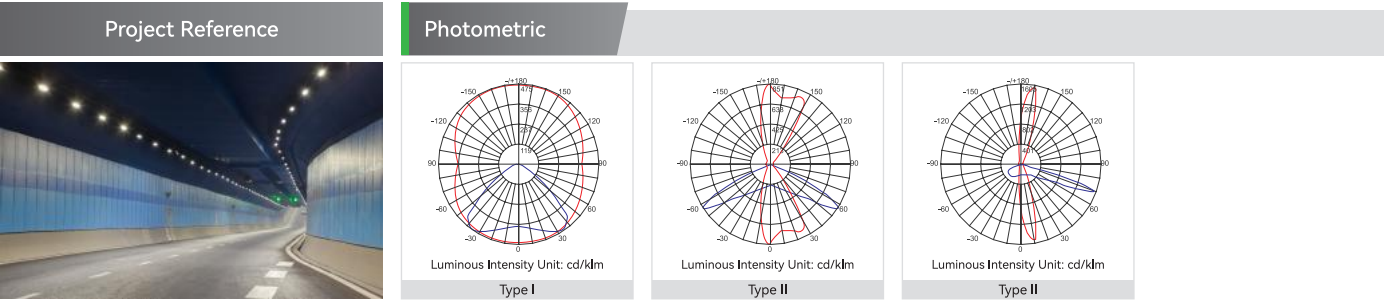

Optical Specs

# Galaxy Tunnel Light

## Description

GALAXY utilizes the industry's creative forward-shooting asymmetric lighting design, ensuring luminance uniformity and substantially reducing visual glare levels in the driving direction of motorists. In addition, the front high-strength tempered glass protects internal optical devices making the requirement of high-pressure water cleaning available, saving more operation and maintenance costs.

-  Reflector Type or Lens Type
-  Multiple Installation
-  Installation Angle Adjustable

# Sports & Stadium Lighting

# Coliseum Sports/Flood Light

## Description

COLISEUM is a tailor-designed, extensible modular high mast light, ideal for the stadium and more large-space lighting. The dedicated-designed, glare-free lens effectively protects the audience's vision and ensures TV broadcasting. In addition, the 360° adjustable mounting U-bracket is flexible for versatile installations with varying angle adjustments.

-  Modular Design
-  Multiple Installation Method
-  Installation Angle Adjustable

# Artemis Series Sports/Flood Light

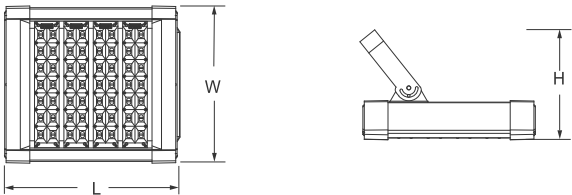

## Description

ARTEMIS SPORTS/FLOOD Light, designs with flexible and adjustable mounting, caters to light up the necessary area for different installation requirements, including pole mounting, arm mounting, and surface mounting. Furthermore, it provides lumen output from 5,250lm to 42,000lm, which can satisfy most modern facilities' flood lighting scenarios.

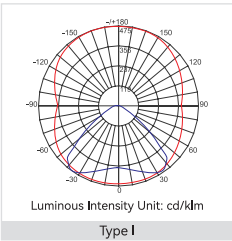

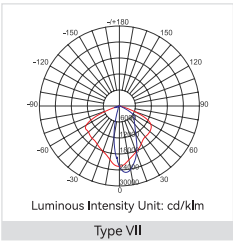

-  Modular Design
-  Multiple Installation Method
-  Installation Angle Adjustable
-  Lumen Efficiency>150lm/W
-  Beam Angle 15° to 150°
-  RA>70 (RA>80 Optional)

# Polaris Sports/Flood Light

POLARIS SPORTS Light is a compact design of lightweight, low wind resistance. Together with a unique optical design that virtually eliminates glare with minimal impact on performance. It is ideal for outdoor, open-space sports facilities for training, lively watching and broadcasting.

It powers from 200W to 1,200W and shoots the beam angle from 5 ° to 30 ° . As a result, Polaris Sports light meets most project requirements.

Reflector Shield Available

Multiple Installation Method

Installation Angle Adjustable

Lumen Efficiency>140lm/W

Beam Angle 5° to 30°

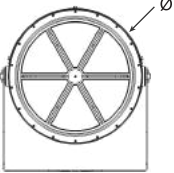

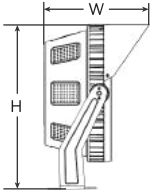

RA>70 (RA>80 Optional)

Optical Specs	
LED Light Source	High Lumen Efficiency 3030 LEDs or 3535 LEDs
LED Color Temperature	4,000K (3,000K, 5,000K and 6,000K optional)
Color Rendering Index	Ra>70 (Ra>80 optional)
Light Distribution & LENS Kit	5° / 10° / 15° / 20° / 30°

Electrical Specs	
Input	100~220~240~365V 50/60Hz
Power Factor	>0.95
LED Driver	MOSO LED Driver (Inventronics optional)
Dimming	W/O; 1~10V / DALI / Programmable
Insulation	Class I

Other Specs	
Operating Temperature & Humidity	-40℃~50℃ / 10~95RH
Storage Temperature	50℃
IP Classification	IP66 / IK10
L80 Hours @ 25℃	>93,000 hours

# Halo Sports/Flood Light

HALO STADIUM FLOOD Light commonly uses for large space illuminations. It utilizes a modularized design, extends the wattage from 200W to 1,400W, and works for high mast, flood and spot lighting applications.

The multiple lenses cooperate with the 360 ° adjustable mounting U-bracket, keeping it flexible for various installations and angle adjustment to supply the best lighting effects.

# Warehouse & General Lighting

# Artemis Hibay Light

## Description

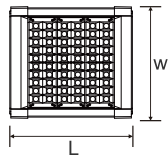

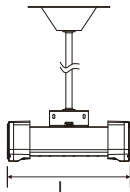

ARTEMIS HIBAY Light inherits the families of Artemis tunnel light and utilizes the modular design concept and its frames. The electrostatic spray-painted housing makes it perfect for regular and harsh environments. Uses together with its matched brackets, which actualizes the versatile surface and pendant mounting applications.

-  Modular Design
-  Surface or Pedant Mount
-  PIR Sensor Available
-  Lumen Efficiency>150lm/W
-  Beam Angle 30° to 150°
-  RA>70 (RA>80 Optional)

Optical Specs	
LED Light Source	5050 LUMILEDS/CREE/LIGHTNING
LED Color Temperature	4,000K (5,000K and 3,000K optional)
Color Rendering Index	Ra>70 (80 optional)
Light Distribution & LENS Kit	Type I / Type V

Electrical Specs	
Input	100-220-240-365V 50/60Hz
Power Factor	>0.95
Surge Protection	6KV (options 10KV & 20KV)
LED Driver	Philips LED Driver (Inventronics / MOSO optional)
Dimming	W/O; 1-10V / DALI / Programmable / PIR Sensor
Insulation	Class I

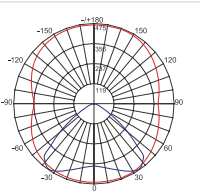

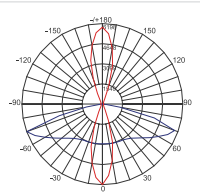

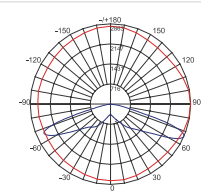

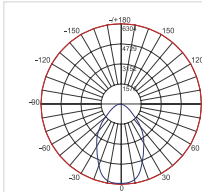

Other Specs

# Artemis Canopy Light

## Description

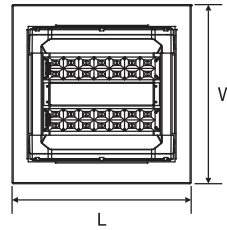

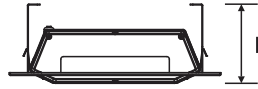

ARTEMIS CANOPY Light (Recessed Mount) utilizes the Kingsun family-adopted scalable modular design with the latest LED technology, delivering the best light efficacy of the luminaires. Succeeds from the conventional frame design, this canopy light can easily embed in the ceiling of the service stations to save time and cost without drilling holes in the shelters.

-  Modular Design
-  Recessed Mount
-  PIR Sensor Available
-  Lumen Efficiency>150lm/W
-  Beam Angle 30° to 150°
-  RA>70 (RA>80 Optional)

Optical Specs

# Jupiter Hibay Light

JUPITER HIBAY Light offers a high performance of 140lm/w to a super high 180lm/w output with its associated optic solutions.

In addition, its anti-glare cover controls the light to illuminate in the dedicated area and collaborates with the PIR sensor to achieve dual energy saving, making energy and cost saving even more effortless.

Reflector Shield Available

Multiple Installation Method

PIR Sensor Available

Lumen Efficiency>140lm/W

Beam Angle 60° to 120°

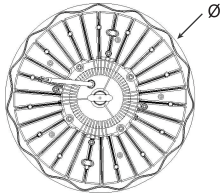

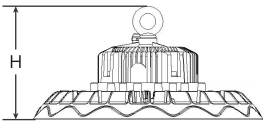

Protection IP65/IK08

Optical Specs	
LED Light Source	High Lumen Efficiency 3030 LEDs
LED Color Temperature	4,000K (3,000K, 5,000K and 6,000K optional)
Color Rendering Index	Ra>70 (Ra>80 optional)

# Pluto Hibay Light

PLUTO HIBAY Light comes with a one-off robust die-casted housing. Its ideal ventilation construction design realises the best heat dissipation effects and ensures this luminaire's long lifespan.

Meanwhile, mounts with different cabochon cover better keep their traditional HID and HPS High Bay light looks and harmonise with the conventional environment.

Reflector Shield Available

Multiple Installation Method

PIR Sensor Available

Lumen Efficiency>140lm/W

Beam Angle 60 to 120°

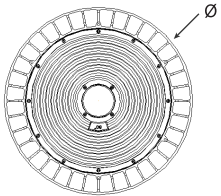

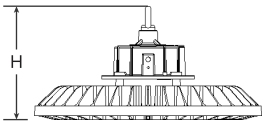

Protection IP65/IK08

Optical Specs	
LED Light Source	High Lumen Efficiency 3030 LEDs

## Post-Top Lighting

# Garden Post-Top Light

GARDEN POST-TOP Light keeps the traditional outlook but has built-in highly efficient LEDs, which suit most outdoor landscapes or streetscapes. In addition, it significantly improves visibility and safety by providing better uniformity of ambient light to residents and communities.

In addition, it customizes 3, 5 and 7-pin NEMA sockets to help the lights to work in the proper schedule and save more power.

NEMA Socket Available

Lumen Efficiency>140lm/W

Beam Angle 30° to 150°

Protection IP65/IK08

RA>70 (RA>80 Optional)

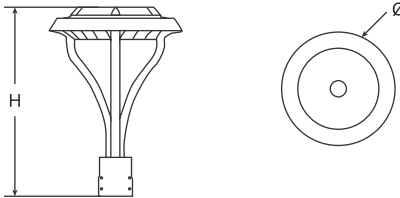

Operating -40° to 50°

Optical Specs	
LED Light Source	High Lumen Efficiency 3030 LEDs
LED Color Temperature	4,000K (3,000K, 5,000K and 6,000K optional)
Color Rendering Index	Ra>70 (Ra>80 optional)
Light Distribution & LENS Kit	Type I

Electrical Specs	
Input	100-220-240-365V 50/60Hz
Power Factor	>0.95
LED Driver	Inventronics LED Driver (MOSO optional)
Dimming	W/O; 1-10V / DALI / Programmable / Photocell
Insulation	Class I

Other Specs	
Operating Temperature & Humidity	-40°C~50°C / 10~95RH
Storage Temperature	50°C
IP Classification	IP65 / IK08
L80 Hours @ 25°C	>93,000 hours
Installation	Ø60mm spigot (Ø38mm spigot optional)

# Chalet Post-Top Light

CHALET POST-TOOP Light, a Bowler hat-shaped design mainly for the Europe market.

It offers both parallel pattern and sunflower pattern appearance, with different light distribution pattern solutions - suits for varied installation requirements of courtyards, gardens, residential area villas and small public squares.

Traditional Design

Lumen Efficiency>100lm/W

Beam Angle 30° to 150°

Protection IP65/IK08

RA>70 (RA>80 Optional)

Operating -40° to 50°

Optical Specs	
LED Light Source	3535 (CREE or equivalent)
LED Color Temperature	4,000K (Options: 5,000K and 3,000K)
Color Rendering Index	Ra>70 (Ra>80 optional)
Light Distribution & LENS Kit	Type I

Electrical Specs	
Input	100-220-240-365V 50/60Hz
Power Factor	>0.95
LED Driver	Inventronics LED Driver (Philips/MOSO options)
Dimming	W/O; 1-10V / DALI / Programmable / Photocell
Insulation	Class I

Other Specs	
Operating Temperature & Humidity	-40°C~50°C / 10~95RH
Storage Temperature	50°C
IP Classification	IP65 / IK08
L80 Hours @ 25°C	>93,000 hours
LED Distribution	Line / Round arrangement
Installation	Ø38mm spigot

# Solar Lighting

# KSL AIO Solar Light

KS AIO solar-powered LED lighting solutions incorporate a self-contained solar power assembly sized to run the specified solar light fixture that provides user-friendly and cost-efficient street and area lighting systems without needing standard utility power.

High Efficiency and long life Solar Panel

IP67 waterproof smart controller

Auto on and off from dusk to dawn

Deep discharge and water proof batteries

Dimmable high power LED

Motion detective sensor

## How it works

Battery gets charged through solar panel and solar charger controller in sunny daytime.

Solar light works at nights with power supply stored in the battery during daytime.

When people or cars come near, the light will be adjusted brighter automatically through the motion sensor incorporated.

When there are no people or cars around, the light will be dimmed to a lower level to save energy for the solar luminaire.

KS AIO Solar Street Lights equip with three possible controls for intelligent street lighting. The luminaire will work automatically. No manual setting is needed. Daylight control, Time + Dimming control and Motion + Dimming + Time Control.

### ▶ Daylight control

The solar street light will automatically turn on and off through a charger controller with a built-in dusk-to-dawn daylight control function.

### ▶ Timing + Dimming control

The solar street light can pre-program with three levels of timing and dimming control functions such as 50% at 1 hour, 100% at 3 hours and 30% at 6 hours. You can customize your times and lighting schedules based on your specific requirement.

### ▶ Motion Sensor + Dimming Control + Optional Timing Control

We also offer the optional motion sensor, which enables the solar Luminaire switch when people come nearby. The brightness will be 100%. After people move away, the brightness will reduce to a lower level, such as 20%, to save more energy. The motion sensor can also work with three levels of timing control function, and you can customize your specific setting based on particular requirements.

# Harvest Food Processing Light

Harvest, designed with anti-corrosion aluminum bodies, provides comfortable vision and illumination for industrial lighting applications, an ideal replacement for traditional light fixtures.

In addition, it offers a wide range of optical choices that either distribute light evenly across open spaces and work levels or concentrate almost all light on racked aisles and work surfaces to make the use of the light more effectively.

# Guardian Food Processing Light

Guardian matches the need for environmentally highly resistant to corrosive facilities. The streamlined appearance makes it aesthetic, dust-proof, and easy for high-temperature, high-pressure water cleaning. Easy to install, use and maintain, saving electricity and labour costs.

The protection of IP69K, with excellent thermal management, high CRI>80 (CRI>90 optional), and multiple control solutions like the DALI/1- 10V/Motion sensor, makes it ideal for processing facilities.

# Saga Marine Light

## Description

SAGA makes of high-purity die-cast aluminium alloy. It goes through a chemical treatment to stabilize its metal activity. Also, the top paint uses fluorocarbon paint to extend its corrosion resistance. As a result, the saga Series have a simple and elegant appearance with a firm structure and shock resistance features and is easy to install and maintain.

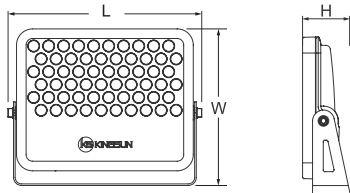

-  Corrosion Resistance
-  Water Flushing OK
-  Installation angle adjustable

# Drip Series Projection Light

DRIP is a distinctive design inspired by the water-drop, dedicated to landscape lighting. The compact, elegant outlook and the adjustable base make this fixture excellent for different architectures. Moreover, its varying beam angles make this model ideal for individual or grouping applications on various buildings.

Input	100~220~240V 50/60Hz or DC24V
Power Factor	>0.95
LED Driver	Philips LED Driver(Inventronics/MOSO options)
Dimming	W/O; 1~10V / DALI / Programmable / Motion Sensor
Insulation	Class I

Other Specs	
Operating Temperature & Humidity	~40°C~50°C / 10~95RH
Storage Temperature	50°C
Protection	IP65 / IK10
L80 Hours @ 25°C	>93,000 hours
Housing	Alloy Aluminum + Tempered Glass

Product	Model Number	Nominal Power (W)	# of LEDs	Dimensions (mm)	CCT/Color	Control System	Beam Angle
Sphinx A DC Version	FL1KA018	36	18	L103 x W144 x H210	1,900~6,500K	Without / DMX512	6°/30°
	FL1KA018	48	18				
Sphinx B DC Version	FL71A006	9	6	L180 x W80 x H238	1,900~6,500K	Without / DMX512	6°/30°
	FL71A006	12	6				
	FL71A009	18	9				
	FL71A009	24	9				
Sphinx C AC Version	FL1KA018	36	18	L103 x W144 x H210	1,900~6,500K R,G,B,Y; RGB	Without / DMX512	6°/30°
	FL1KA018	48	18				
Sphinx D AC Version	FL71A006	9	6	L113 x W116 x H196	1,900~6,500K R,G,B,Y; RGB	Without / DMX512	6°/30°
	FL71A006	12	6				
	FL71A006	18	9				
	FL71A006	24	9				

# Aurora Series Linear & Wall Washer Light

Wall Washer Light

Linear Light

## Description

Aurora, a fashionable design that works with most environments harmoniously, uses the high-end extruded 6063 aluminum body. This optimized structure design also ensures better heat radiation, longer LED lifetime and IP level.

In addition, multi-angle and polarized light lens designs meet the demands of various lighting designs and maximize the utilization of the lamp.

**AC/DC** DC or AC input

**RGB** RGB or Single Color

**DMX** DMX Control

**IP/IK** Protection IP66/IK09

**Beam Angle** 15° to 120°

**RA**>70

### Optical Specs

LED Light Source	High Lumen Efficiency 3535 or 3030 LEDs
LED Color Temperature	1900~6500K (Options: R,G,B,Y and RGB)
Color Rendering Index	Ra>70 (Options: 80)
Light Distribution & LENS Kit	6° / 15° / 30° / 45° / 60° / 10°*60° / 10°*45°

### Other Specs

Operating Temperature & Humidity	-40°C~50°C / 10~95RH
Storage Temperature	-20°C~45°C
IP Classification	IP66 / IK08
L80 Hours @ 25°C	>93,000 hours
Material	Aluminum alloy housing +Tempered glass cover

### Electrical Specs

Input	100~220~240~365V 50/60Hz
Power Factor	>0.95
LED Driver	Philips LED Driver(Inventronics/MOSO options)
Dimming	W/O; 1~10V / DALI / Programmable / Photocell
Insulation	Class I

### Product Dimention

## Wall Washer Light

Product	Model Number	Nominal Power (W)	# of LEDs	Flux @ 5000K (lm)	Weight(KG)	Dimensions (mm)
DC 24V 1,900~6,500K R.G.B.Y / RGB	WW1K1018	18	18	1,800	1.40	L1000 x W37 x H52
	WW1K1024	24	24	2,400		
	WW1K1036	36	36	3,600		
	WW1KA024	48	24	4,800		
	WW1KA030	54	30	5,400		
DC 24V RGBW	WW1KA032	54	32	-	1.40	
AC 120~240V 1,900~6,500K R.G.B.Y	WW1K1018	18	18	1,800	1.40	L1000 x W37 x H52
	WW1K1024	24	24	2,400		
	WW1K1036	36	36	3,600		
	WW1KA024	48	24	4,800		

## Linear Light

Product	Model Number	Nominal Power (W)	# of LEDs	Flux @ 5000K (lm)	Weight(KG)	Dimensions (mm)
DC24V 110° Glass type (Without lens)	WW1L4012	12	36	1,200	1.40	L1000 x W37 x H52
	WW1L4015	15	48	1,500	1.40	
DC 24V Lens type	WW1L4012	12	36	1,200	1.50	L1000 x W37 x H52
	WW1L4012	15	48	1,500	1.50
