The sound of gentle touch, the temperature of your fingertips
 The sentiment between the grids is like the color of your life
 Every touch, every opening and closing
 The ordinary actions in life
 In this noisy world, pay attention to the colors in the corners
 Experience the charm of "shape" and "grid"
 Even if the space is limited, there are boundless excitement

Extremely simple and extraordinary A large panel that breaks the limit with vertical lines creates a pure square visual experience. At the same time, using the latest technology to realize the switch, the function of switch and socket based on same size, but the aesthetics is greatly improved.

K2 PC/PC WIRE DRAWING

The beauty of the combination of point and surface, the big panel is full of momentum
The perfect combination of soft touch points; the combination of point and surface
The byte echoes the whole, simple but not monotonous
The golden chrome frame decoration complements the large-board buttons
Full of excellence and elegance

K8 COMPOSITE ACRYLIC

Harmony is the secret to creating elegance, just like K8 series switches
Under the leather texture background is a chrome-plated frame,
Wrapped in a gift-like decoration,
In the center of the dermatoglyph is a simple and generous button

-  Mobile APP remote control
-  Vioco interaction, new intelligent experience
-  Tempered Glass
-  Smart timing
-  Bluetooth connected directly

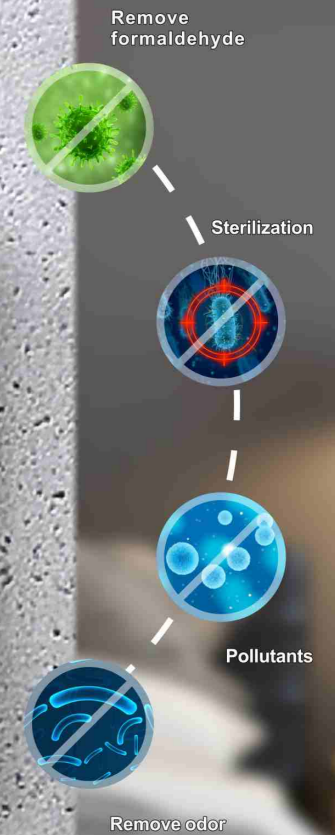

**Ozone sterilizing
air purifier**

**Wall type negative
ion purifier power socket**

Three-state purification of physics, chemistry and microorganisms

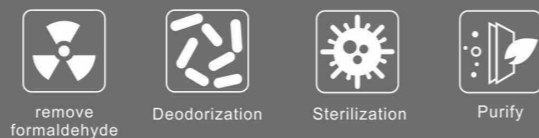

Mode M1-low: <negative ion mode> After anion O2 works for 15 minutes, it stops for 15 minutes, and the cycle starts

Horizontal M2-Mid: <Ozone+Negative Ion Cycle Mode>Ozone O3 works for 10 minutes, stops for 50 minutes, and the cycle starts! After the negative ion O2 works for 30 minutes, it stops for 30 minutes, starts the cycle, and shuts down after 8 hours.

Mode M3-High: <Timed shutdown ozone mode> Ozone O3 works for 30 minutes, then stops for 30 minutes, Shut down after 3.5 hours of cycle start.

Purification principle

Use the strong oxidizing power of ozone to destroy the cell wall of decomposing bacteria, decompose and kill bacteria, clean the air

Purification principle

The purifier releases ecological → grade negative oxygen ions → physical adsorption of harmful substances → the two merge into harmless substances → purification is completed
