

**THE ENGINEERING INDUSTRY**

The electricity conversion for large-scale distribution, originating from renewable energy sources, is today the basis for selling sustainable energy.

The engineering industry of the Milotta Group deals with the design and construction of customized structures.

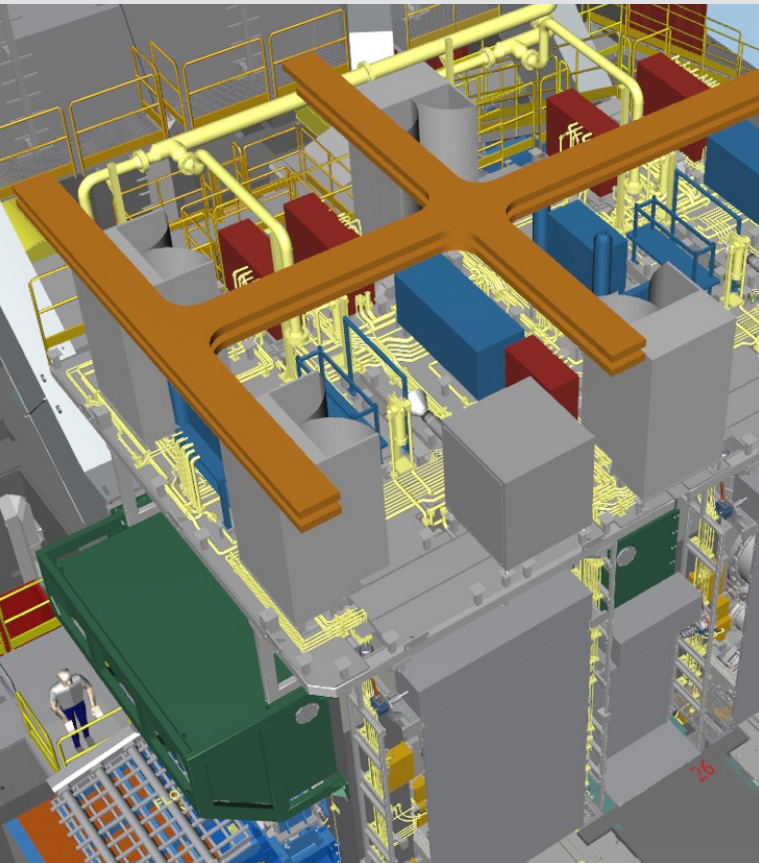

Today Milotta Group is a leader in the construction of CSC containers for the installation of transformers and inverters.

---

40+ years of experience in designing and construction of steel structures such as:

- Removable container system with lifting hook;
- Compactors;
- Hydraulic systems;
- Cranes and lifting systems.

---

We also have certifications such as:

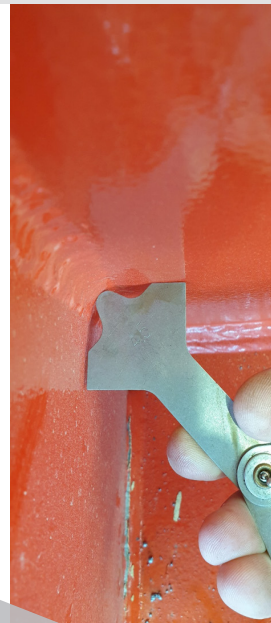

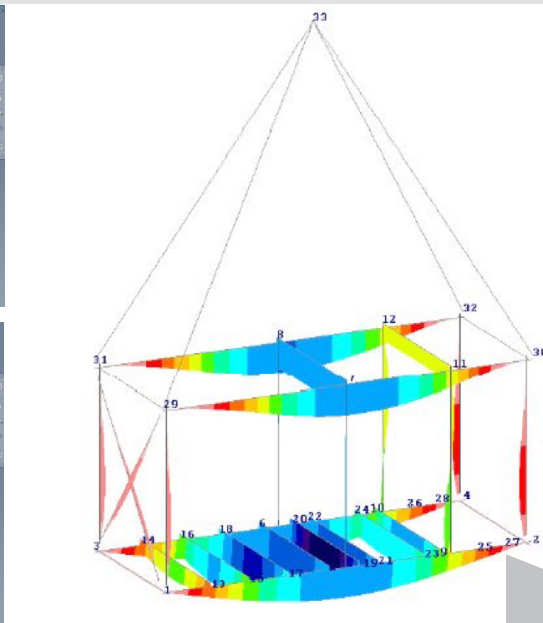

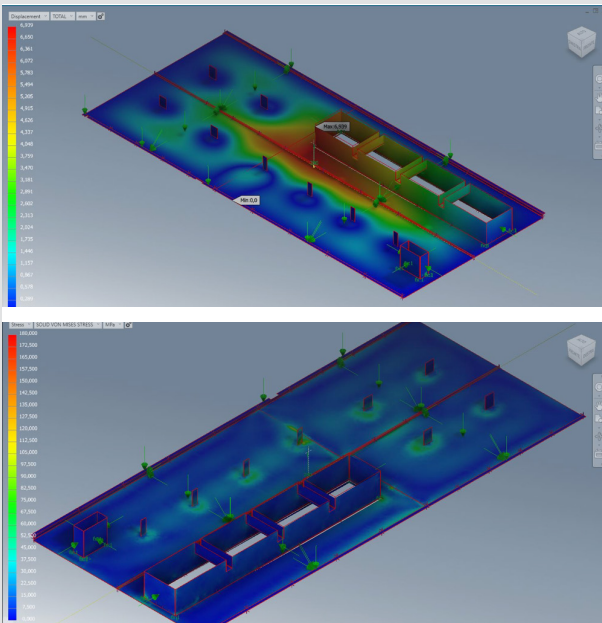

**UNI EN ISO 9001:2015**  
relating to the construction  
and repair of metal structures.

**UNI EN ISO 1090 and 3834**  
relating to the qualification  
of processes and welds.

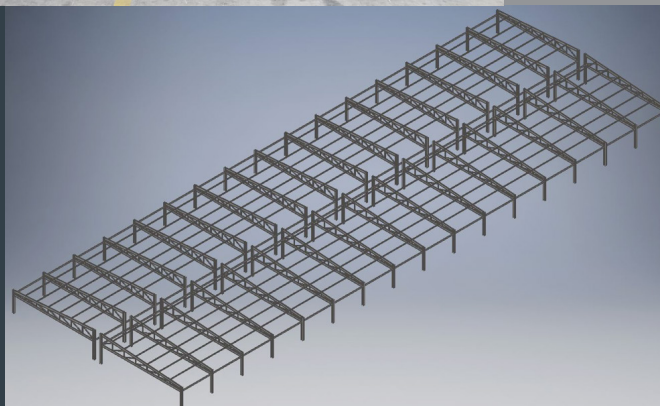

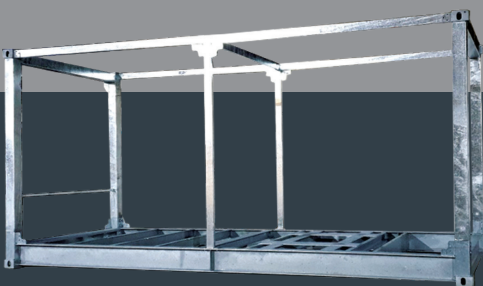

**CSC CERTIFICATION**  
**SHIPPING CONTAINERS**  
to ensure safe shipments.

**THE TEAM CONSISTS OF:**

- Engineers
- Designer
- Welders
